

POTHOLDER TRANSFERS

Embroidery Transfer Directions

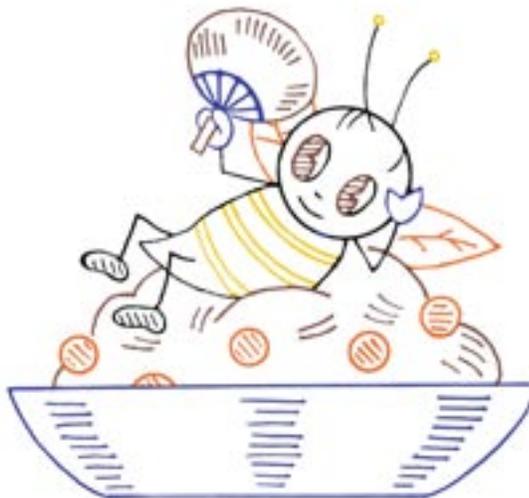

1. Make copies of the embroidery patterns below (more patterns in the Simply Bee issue, Feb-Mar 2009, of *MaryJanesFarm* magazine). Enlarge them to fit your project if need be.
2. Trace the designs with a wax pencil onto tracing paper. Lay the tracing paper upside down on your fabric and iron, using the wool setting (no steam), transferring the designs onto your fabric.
3. Embroider using your favorite stitches. (Refer to *MaryJane's Ideabook, Cookbook, Lifebook* for detailed stitch instructions.)
